

Bank of England

FORM EL

BALANCE SHEET RETURN

CROSS FORM VALIDATIONS

The EL is the core form for statistical reporting. The below references any cross form validation checks against each box. A reminder that for Form EL, reporters are required to report to the Bank in line with the Statutory Instrument and with their own accounts and records, rather than in line with their statistical reporting returns.

For more information, please refer to the Statutory Instrument:

<https://www.legislation.gov.uk/ukSI/2024/252/made>
